A message from Mayor Jim Gasparini:

In an effort to help prevent the spread of COVID-19, and in an abundance of caution to the public and municipal employees, the Township will be modifying the daily operations in the Municipal Building, Recreation Center, and Library. The buildings will be open but will have limited access. The Municipal Building will only be accessed from the western entrance; that is the entrance near the police trailers. When approaching any of the buildings there will be a sign posted with a phone number to call for access. All business will be conducted in the vestibule of the respective building by the appropriate person. No one will be permitted to access any other part of the buildings at this time. This procedure is to protect the continuity of the government in order to be able to operate and provides services to the public. This procedure will take effect immediately and end on March 30, 2020. Please remember to do your part as recommended by the CDC and together we will continue to mitigate the spread of this virus.
